July 31 - August 4	Humane Heroes	3 & 4
August 7 - 11	Animal Artists	1 & 2
August 14 - 18	Vet Camp	5 & 6

All About Animals: Extra! Extra! Learn All About...Animals! Campers get to explore the amazing and wonderful world of animals. Through guest speakers, hands-on exploration and projects, campers will gain a better understanding of animals in the world and how to help them.

All 4 Paws!: If you love furry 4-legged creatures this camp is for you. This camp focuses on dogs, cats, and critters. Learn everything that you will need to know on how to care for your animals, why your animals do the things they do, and fun facts that make dogs, cats, and critters unique in this world. Two days are dedicated to cats and dogs and one day is dedicated to critters.

Rescue Me: Campers will feel like superheroes when they learn that they too can help save animals in their community! Through hands-on activities and guest speakers, campers will gain valuable knowledge of the needs of animals in our area. Campers will also get to design their own rescue using the skills learned in camp!

Humane Heroes: Heroes are everyday people doing extraordinary things. In this camp, you will learn how everyday people have made a difference in the lives of animals. Each day will feature an hero that helps animals in their community. You will learn what each hero does, how they started, and help them to solve issues concerning animals. If you have ever wondered how you can help save animals, this is the camp for you. Learn how you can be a Humane Hero!

Animal Artists: Love to create? Love Animals? This camp is the perfect combination for you! Using different media campers will create art about animals, for animals, and with animals.

Vet Camp: Is your camper interested in veterinary science? This camp is for every student wanting to learn more about veterinary medicine. In addition to learning about what veterinarians do, campers will participate in hands-on projects to learn about how to keep animals healthy and safe.
